

**HB 4854 is a well written bill that prevents Michigan pension fund money from funding a genocide in a country thousands of miles away. It is written to protect the innocent civilians of Sudan and maximize the effectiveness of divestment against a brutal regime. It protects Michigan pension fund holders by targeting a very small percentage of the worst offending companies. Seldom are we given the opportunity to do the right thing in such an obvious manner. This genocide has raged for four years, each passing day it gets more complicated, dangerous and more devastating to those on the ground. Enough is enough, it is time to act. Ginny Mitchell Ypsilanti, MI 48197.**
